

A BIG BODY OF GOLD

Important Disclosures In the Indian Creek Mines.

THE ONTARIO AND DALY MATTERS AT THESE MINES IN A DEMORALIZED CONDITION.

The Proposed Cut In Wages—Matter of Indifference to the Management Whether or Not They Do So—Willow Creek Mines—Idaho Camp In Which Utah People Are Interested—Work Resumed in the Operation of the Checkmate—Fine Body of Ore in the Black Rock, Assaying 33 Ounces in Gold to the Ton Besides Well in Silver—Two New Mining Companies—Incorporation of the Black Diamond and the Black Pine—The Good Hope Placers—Best Seabolt Leases For the Digging With Provisions and Supplies.

Word was received in the city yesterday from C. W. Miles, general manager of the property of the Indian Creek Mining company, in Newton district, Beaver county, that the showing in the Utah mine was magnificent and that it was difficult to estimate the amount of ore virtually blocked out in the property.

The main workings on the group are on the Utah claim, where the ledge is strong and well defined on the surface, the ore often showing fine gold in the native state. On this ground the main shaft was started in the country rock, but it was not long before the vein was encountered on its dip, and as sinking progressed the ore zone became larger and larger until at the 70-foot level the entire bottom of the shaft was filled with good grade of milling ore.

Soon after beginning work in the development of the Utah a parallel vein was discovered and the ledge is strong and well defined on the surface, the ore often showing fine gold in the native state. A shaft was started on the level with the workings in the other shaft a crosscut was started from both with the view of reaching the two for air and to facilitate operations. These drifts or crosscuts have already been driven in for quite a distance, and while the drilling and cutting has been made as yet, they have been run all the way in first-class ore and the indications now are that the intervening space will carry average values of at least \$20 to the ton.

This discovery is causing considerable excitement in mining circles in the south, and the officers of the company would not make an even exchange for the best Klondike proposition if they had to go to Alaska to do it, as they are fully convinced that in this Indian Creek mine they have the making of a bonanza, and there are many others who are acquainted with the property that are of the same opinion.

Such a body of ore as this is certainly something to talk about, and shows what industry and hard work and development will do, while it also demonstrates the truth of the statement that right here in Utah there are any number of chances to make money in mining without running all the risks and having all the hardships incident to the wild rush that is being made for the Alaskan wild-o-the-wisp.

The company has sent two horse whips out to the mine, and will soon install a concentrator on the ground.

THE ONTARIO AND DALY MATTERS AT THESE MINES IN A DEMORALIZED CONDITION.

All kinds of rumors were in circulation on the streets yesterday relative to the condition of affairs at the Ontario and Daly mines at Park City, and the rapid decline in the selling quotations of the stocks of these two corporations would seemingly bear out the rumors concerning them.

One of these was to the effect that it was about decided to close down these properties as a fact that a telephone yesterday morning that the evening before the union men in the employ of the Ontario and Daly mine had held a meeting and decided to accept the proposed cut unless certain concessions were made, but that these conditions were not disclosed, but it was the impression that they would be granted by the two companies.

On Monday Ontario stock changed hands in this city at \$6.10, while yesterday a Park City holder of Daly stock telephoned to the city brokers offering to sell at \$2.50, and failing to get the price asked for a bid on the stock, which was refused.

It was given out by the Ontario and Daly mines and mills had accepted the cut, but it transpires that the meeting convened to act in the premises was supposed of being a union and non-union men, and that since that time the union has repudiated the action taken.

What the outcome will be is awaited with a great deal of interest by the news and mining men throughout the state.

WILLOW CREEK MINES.

Idaho Camp In Which Utah People Are Interested.

A correspondent from Pearl, Ida., to the Boise Statesman makes the following mention of properties in Willow Creek district, in which Joe H. Young of this city and P. C. Chapin of Ogden are interested:

The Willow Creek district is showing considerable activity. Several properties which had been idle for some time have begun operations this month, among them being the Checkmate, George H. Wyman, superintendent, has been for some time preparing the Checkmate for active operations and has seven men employed at present. The mine will be put to work as soon as possible and a much larger force worked. There is an abundance of high grade ore in sight, which will soon be taken out and shipped. The Checkmate is among the best properties in our camp and the citizens are pleased

TO SEE THE MINE OPERATED AGAIN, FOR THEY KNOW IT IS A WONDERFULLY RICH MINE AND WILL BE THE MEANS OF ADVANCEMENT FOR THE STATE.

The Last Chance is reported sold to F. C. Chapin and Blinford. This claim, although only a small fraction, is a valuable one. The ore body for many feet is over 20 feet in width and runs very high in gold.

Johnson & Chapin, owners of the Leavitt claim, have let a contract to sink a shaft to a depth of 200 feet. A Denver claim has been purchased and is expected daily at the mine. This claim has paid out from the surface. A fine body of ore is exposed in the bottom of the shaft. The owners will no doubt soon be shipping ore.

Johnson, Chapin & Blinford, owners of the Black Rock Creek on Rock creek, are very much pleased over their new find in the old tunnel. They cut a few feet to the right of the face of the tunnel and were surprised at getting into a body of ore assaying higher than any other ore body in the camp for the same size. Assays have been had giving 22 ounces of gold per ton besides carrying a large amount of silver. The ore runs from 6 to 14 inches in width. They have closed down for a short time in order to put in cars and track and to timber. This claim has always been considered a big prospect, but the new discovery places it beyond anything in the district.

The Dewey people are working all the time on a new find on the new find. The shaft is being sunk and is over 200 feet in depth. At the 200-foot level the ledge is about 10 inches wide and is in good ore. They are now drilling on it both ways and have 24 inches of first-class ore suitable for shipment. E. H. Dewey and Mr. Guffy have just left the camp. They stated while here that the Dewey ore was beyond their expectations. The fact of these people spending so much money here in the way of development is very encouraging to the entire camp.

A shaft is being sunk on the ledge in the lower tunnel on the Ida and is in good ore, having two separate bodies, one carrying over 150 ounces of silver and the other of gold and silver fully 16 inches wide. The other carries over six ounces of gold and only seven ounces of silver. The silver ore is a very hard quartz, the gold ore is a sulphide and runs 14 inches wide. A steam hoisting plant will be put on soon and the ore shipped direct to smelters as both bodies will bear shipment. The company has done more development than any other company in the district and every portion of the works is being consolidated. The first-class ore in the Ida and Ida and Ida are the largest producers in the camp.

NEW MINING COMPANIES.

The Black Diamond and Black Pine Incorporated Yesterday.

The Black Diamond Mining company, composed of L. W. Clark, Asst. Day, J. A. White, L. T. Brockbank and Henry Sadler, filed articles yesterday.

The company owns a lease and bond on the Black Diamond, North Star and Valley district, which represents the capital stock of \$125,000, divided into 250,000 shares, of which 50,000 are reserved as treasury stock.

The company is a mining company, has 20,000; Henry Sadler, president, 20,000; A. S. Day, secretary and treasurer, 50,000; J. A. White, 20,000, and L. T. Brockbank, 50,000.

The Black Pine.

Articles were also filed by the Black Pine Mining company, composed of John Beck, Henry Dinwoody, Frank E. Taylor, Hyrum Beck and W. W. Taylor, with a capital stock of \$300,000, divided into shares of \$1 each.

The capital stock consists of a transfer from W. S. McCormick and Jesse H. Hardy, of the Telluride, Aspen, Lake and Climax claims in Black Pine district, Cassia county, Idaho, and is held as follows:

John Beck, president, 145,000; Henry Dinwoody, vice president, 25,000; Frank E. Taylor, secretary and treasurer, 25,000; Hyrum Beck, 15,000; W. W. Taylor, 25,000; John Beck, trustee, 50,000.

The Good Hope Placers.

Prices, Utah, July 27.—Mr. Bert Seabolt, superintendent of the Gilson Asphaltum company, at Fort Duchesne, and party, left Price today for the Good Hope placer mines on the Colorado river, with two four horse outfits, and 30 day's provisions. The party was accompanied by Mr. J. H. Ferron, Colonel Ben Hite, Tom Taylor, W. H. Kelsey and J. D. Lyman.

"I have been suffering with sores on my face, I was unable to sleep and had no appetite. I began taking Hood's Sarsaparilla, and after I had used two bottles the sores disappeared, my appetite increased and I can now sleep soundly and feel like a different man."

CUT RATES EAST

via Union Pacific System.

On July 14 to 19 inclusive, and on July 21, 23, 25, 31 and Aug. 4, 7 and 10 the Union Pacific announces the following low rates:

To Denver \$11.00
To Kansas City, Omaha, St. Louis, City, etc. 15.50
To Fort Worth, Texas 19.50
To St. Louis 25.50
To Chicago 29.50
Consult your own interest and use the line which offers several hours' quickest time, the best equipment, the most comfortable service, and the lowest rates. Pullman Palace and Tourist Sleeping Cars, Dining Cars, Buffet Smoking and Library Cars and Free Reclining Chair Cars, with no extra charge for baggage. Leave daily for Missouri River or Chicago. Call at ticket office, 201 Main St., for full particulars.

The Hawes Engraving Co., 72 West Temple Street.

We are now located at the above number, with a complete plant for making half tone engravings, zinc cuts and all kinds of color blocks. Write for our prices and prices before placing your orders.

A Valuable Prescription.

Editor Morrison of Worthington, Ind., "Sun" writes: "You have a valuable prescription in Electric Bitters, and I can cheerfully recommend it for constipation and sick headache, and as a general system tonic it has no equal. My wife, Anna, 52 years old, runs down, could not eat nor digest food, had a backache which never left her, and felt tired and weary, but six bottles of Electric Bitters restored her health and renewed her strength. Prices 50 cents and \$1.00. Get a bottle at a C. M. I. drug store."

For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums, allays all pain, cures colic and is the best remedy for Diarrhoea. Twenty-five cents a bottle.
